DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 78 – 82, 92 – 110, 117 – 137, 160 and 162 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 - 68 of U.S. Patent No. 5,949,492. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to modify patent 5,949,492 to get the claims in the instant application.

Claims 78 – 82, 92 – 110, 117 – 137, 160 and 162 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 - 68 of U.S. Patent No. 6,253,069. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to modify patent 6,253,069 to get the claims in the instant application.
